- 7.4.1 The Trust shall consider the guidance “Risk Evaluation for Investment Decisions by NHS Foundation Trusts” and such other guidance as may be issued by the Independent Regulator from time to time in respect of capital investment and estate and property transactions.

7.5 Formal Competitive Tendering

7.5.1 General Applicability

The Trust shall ensure that competitive tenders are invited for:

- The supply of goods, materials and manufactured articles;
- The rendering of services including all forms of management consultancy services (other than specialised services sought from or provided by the DH);
- For the design, construction and maintenance of building and engineering works (including construction and maintenance of grounds and gardens); for disposals

Any other areas of expenditure not covered by the above

7.5.2 Health Care Services

Where the Trust elects to invite tenders for the supply of healthcare services these Standing Orders and Standing Financial Instructions shall apply as far as they are applicable to the tendering procedure and need to be read in conjunction with Standing Financial Instruction No. 8.

7.5.3 Exceptions and instances where formal tendering need not be applied

Formal tendering procedures **need not be applied** where:

- (a) The estimated expenditure or income does not, or is not reasonably expected during the total period of the contract to exceed £ 24,999;
- (b) Where the supply is proposed under special arrangements negotiated by the DH in which event the said special arrangements must be complied with. This includes the use of DH procurement frameworks for the construction of healthcare facilities;
- (c) In transactions involving the disposal of assets Standing Financial Instructions No. 14 does not require formal competitive tendering;

Corporate Policy – Standing Financial Instructions

Formal tendering procedures below the OJEU threshold (or any subsequent legislation) **may be waived** in the following circumstances:

- (d) In very exceptional circumstances where the Chief Executive decides that formal tendering procedures would not be practicable or the estimated expenditure or income would not warrant formal tendering procedures, and the circumstances are detailed in an appropriate Trust record;
- (e) Where the requirement is covered by an existing contract;
- (f) Where national framework agreements are in place.
- (g) Where a consortium arrangement is in place and a lead organisation has been appointed to carry out tendering activity on behalf of the consortium members;
- (h) Where the timescale genuinely precludes competitive tendering but failure to plan the work properly would not be regarded as a justification for a single tender;
- (i) Where specialist expertise is required and is available from only one source. This would include specialist original equipment manufacturer (OEM) parts, maintenance and repairs
- (j) When the task is essential to complete the project, and arises as a consequence of a recently completed assignment and engaging different consultants for the new task would be inappropriate;
- (k) There is a clear benefit to be gained from maintaining continuity with an earlier project. However in such cases the benefits of such continuity must outweigh any potential financial advantage to be gained by competitive tendering;
- (l) Where the market has been tested and insufficient number of tenders have been received
- (m) Where the provider is available via a national framework but the Trust is able to negotiate better commercial terms.
- (n) For the provision of legal advice and services that are not available via a national framework providing that any legal firm or partnership commissioned by the Trust is regulated by the Law Society for England and Wales for the conduct of their business (or by the Bar Council for England and Wales in relation to the obtaining of Counsel's opinion) and are generally recognised as having sufficient expertise in the area of work for which they are commissioned.

Corporate Policy – Standing Financial Instructions

The waiving of competitive tendering procedures should not be used to avoid competition or for administrative convenience or to award further work to a consultancy originally appointed through a competitive procedure

Where it is decided that competitive tendering is not applicable and should be waived, the fact of the waiver and the reasons should be documented and recorded in an appropriate Trust record and reported to the Integrated Audit Committee at each meeting.

7.5.4 Fair and Adequate Competition

Where the exceptions set out in these standing financial instructions do not apply, the Trust shall ensure that invitations to tender are sent to a sufficient number of firms/individuals to provide fair and adequate competition as appropriate, and in no case less than three firms/individuals, having regard to their capacity to supply the goods or materials or to undertake the services or works required.

7.5.5 List of Approved Firms

The Trust shall ensure that the firms/individuals invited to tender (and where appropriate, quote) are among those on approved lists or approved by pre-qualification, unless through open invitation to tender consistent with UK directives. Where in the opinion of the Chief Financial Officer it is desirable to seek tenders from firms not approved, the reason shall be recorded.

A manager nominated by the Chief Executive shall on behalf of the Trust maintain lists of approved firms from who tenders and quotations may be invited. These shall be kept under frequent review. The lists shall include all firms who have applied for permission to tender and as to whose technical and financial competence the Trust is satisfied. All suppliers must be made aware of the Trust's terms and conditions of contract.

For building and engineering construction works and consultancy costs, invitations to tender shall be made only to firms included on the approved list of tenders compiled in accordance with this instruction or on the separate maintenance lists compiled and who are listed on the Construction line Supplier List for the relevant scope and value of works/services being procured.

Firms included on the approved list of tenders shall ensure that when engaging, training, promoting or dismissing employees or in any conditions of employment, shall not discriminate against any person because of colour, race, ethnic or national origins, religion or sex, and will comply with the provisions of the Equality Act 2010 and any amending and /or related legislation.

Firms shall conform at least with the requirements of the Health and Safety at Work Act and any amending and /or other related legislation concerned with the health, safety and welfare of workers and other persons, and to any relevant British

Corporate Policy – Standing Financial Instructions

Standard Code of Practice issued by the British Standard Institution. For building and engineering construction works, firms must provide to the appropriate manager a copy of its safety policy and evidence of the safety of plant and equipment, when requested.

7.5.6 Financial Standing and Technical Competence of Contractors

The Chief Financial Officer may make or institute any enquiries he/she deems appropriate concerning the financial standing and financial suitability of approved contractors. The Director with lead responsibility for clinical governance will similarly make such enquiries as is felt appropriate to be satisfied as to their technical/medical competence.

7.5.7 Exceptions to using Approved Contractors

If in the opinion of the Chief Executive and the Chief Financial Officer it is impractical to use a potential contractor from the list of approved firms/individuals (for example where specialist services or skills are required and there are insufficient suitable potential contractors on the list), or where a list for whatever reason has not been prepared, the Chief Executive should ensure that appropriate checks are carried out as to the technical and financial capability of those firms that are invited to tender or quote.

An appropriate record in the contract file should be made of the reasons for inviting a tender or quote other than from an approved list.

7.5.8 Items which subsequently breach thresholds after original approval

Items estimated to be below the limits set in this Standing Financial Instruction for which formal tendering procedures are not used which subsequently prove to have a value above such limits shall be reported to the Chief Executive, and be recorded in an appropriate Trust record.

7.6 Contracting/Tendering Procedure

7.6.1 Invitation to tender

- (a) All invitations to tender shall be issued on the Trust's e-tendering platform and shall state the date and time as being the latest time for the receipt of tenders.
- (b) All invitations to tender shall state that no tender will be accepted unless they are submitted via the e-tendering platform
- (c) Every tender for goods, materials, services or disposals shall embody such of the NHS Terms and conditions for the supply of goods and services as are applicable.

Corporate Policy – Standing Financial Instructions

- (d) Every tender for building or engineering works (except for maintenance work, when Estate code guidance shall be followed) shall embody or be in the terms of the current edition of one of the Joint Contracts Tribunal Standard Forms of Building Contract or Department of the Environment (GC/Wks) Standard forms of contract amended to comply with Concode; or, when the content of the work is primarily engineering, the General Conditions of Contract recommended by the Institution of Mechanical and Electrical Engineers and the Association of Consulting Engineers (Form A), or (in the case of civil engineering work) the General Conditions of Contract recommended by the Institute of Civil Engineers, the Association of Consulting Engineers and the Federation of Civil Engineering Contractors, or in the case of contracts entered into using DH frameworks the rules and regulations regarding this procurement route. If the Trust deems appropriate these documents shall be modified and/or amplified to accord with Independent Regulator guidance and, in minor respects, to cover special features of individual projects.

7.6.2 Opening tenders and Register of tenders

- (a) As soon as practicable after the date and time stated as being the latest time for the receipt of tenders, they shall be opened on the e-tendering platform.
- (b) The rules relating to the opening of tenders will need to be read in conjunction with any delegated authority set out in the Trust's Scheme of Delegation.
- (c) The 'originating' Department will be taken to mean the Department sponsoring or commissioning the tender.
- (d) An electronic record shall be maintained on the e-tendering platform to show for each set of competitive tender invitations despatched:
 - i) The name of all firms or individuals invited;
 - ii) The names of firms individuals from which tenders have been received;
 - iii) The date the tenders were opened;
 - iv) The price shown on each tender;
- (e) Incomplete tenders, i.e. those from which information necessary for the adjudication of the tender is missing, and amended tenders i.e., those amended by the tenderer upon his own initiative either orally or in writing after the due time for receipt, but prior to the opening of other tenders, should be dealt with in the same way as late tenders.

7.6.3 Admissibility

Corporate Policy – Standing Financial Instructions

- (a) If for any reason the designated officers are of the opinion that the tenders received are not strictly competitive (for example, because their numbers are insufficient or any are amended, incomplete or qualified) no contract shall be awarded without the approval of the Chief Executive.
- (b) Where only one tender is sought and/or received, the Chief Executive and Chief Financial Officer shall, as far as practicable, ensure that the price to be paid is fair and reasonable and will ensure value for money for the Trust.

7.6.4 Late tenders

Tenders received after the due time and date, but prior to the opening of the other tenders, may be considered only if the Chief Executive or his nominated officer decides that there are exceptional circumstances i.e. despatched in good time but delayed through no fault of the tenderer.

7.6.5 Acceptance of formal tenders

- (a) Any discussions with a tenderer which are deemed necessary to clarify technical aspects of his tender before the award of a contract will not disqualify the tender.

The most economically advantageous (MEAT) tender, shall ordinarily be accepted unless there are good and sufficient reasons to the contrary. Such reasons shall be set out in either the contract file, or other appropriate record. The process of determining the lowest net cost, or the highest net value, should ensure that optimum value for money is achieved and should therefore assess the factors of economy, effectiveness and efficiency of the tendered goods or services. Other qualitative factors affecting the success of specific projects should also be assessed and include the:

- i) Experience and qualifications of the supplier team member;
 - ii) Understanding of client's needs;
 - iii) Feasibility and credibility of proposed approach;
 - iv) Ability to complete the project or deliver the service within the required timescale
- (b) Where other factors are taken into account in selecting a tenderer, these must be clearly recorded and documented in the contract file, and the reason(s) for not accepting the lowest tender clearly stated.
 - (c) If only one tender is received and this is in the range of the initial estimate then the contract can be awarded to that tenderer.

Corporate Policy – Standing Financial Instructions

- (d) No tender shall be accepted which will commit expenditure in excess of that which has been allocated by the Trust and which is not in accordance with these Instructions except with the authorisation of the Chief Executive.
- (e) The use of these procedures must demonstrate that the award of the contract was:
 - i) Not in excess of the going market rate / price current at the time the contract was awarded;
 - ii) That best value for money was achieved.
- (f) All tenders should be treated as confidential and should be retained for inspection.

7.6.6 Tender reports to the Trust Board

Reports to the Trust Board will be made on an exceptional circumstance basis only.

7.7 Quotations: Competitive and non-competitive

7.7.1 General Position on quotations

Competitive quotations are required where formal tendering procedures are not adopted and where the intended expenditure or income during the total period of the contract is reasonably expected to exceed £24,999.

7.7.2 Competitive Quotations

- (a) Written Quotations or Tenders as appropriate should be obtained from at least 3 suppliers from £24,999 to £49,999, 4 from £50,000 to £249,999 and a minimum of 5 over £250,000, based on specifications or terms of reference prepared by, or on behalf of, the Trust.
- (b) Quotations should be in writing on company letter headed paper, from a company email address or via the e-tendering platform
- (c) All quotations should be treated as confidential and should be retained for inspection.
- (d) The Chief Executive or his nominated officer should evaluate the quotation and select the quote which gives the best value for money. If this is not the lowest quotation if payment is to be made by the Trust, or the highest if payment is to be received by the Trust, then the choice made and the reasons why should be recorded in a permanent record.

7.7.3 Non-Competitive Quotations

Corporate Policy – Standing Financial Instructions

Non-competitive quotations in writing may be obtained in the following circumstances

- (a) The supply of proprietary or other goods of a special character and the rendering of services of a special character, for which it is not, in the opinion of the responsible officer, possible or desirable to obtain competitive quotations;
- (b) The supply of goods or manufactured articles of any kind which are required quickly and are not obtainable under existing contracts;
- (c) Miscellaneous services, supplies and disposals;
- (d) Where the goods or services are for building and engineering maintenance the responsible works manager must certify that the first two conditions of this SFI (i.e.: (a) and (b) of this SFI) apply.

7.7.4 Quotations to be within Financial Limits

No quotation shall be accepted which will commit expenditure in excess of that which has been allocated by the Trust and which is not in accordance with Standing Financial Instructions except with the authorisation of either the Chief Executive or Chief Financial Officer.

7.8 Authorisation of Tenders and Competitive Quotations

Providing all the conditions and circumstances set out in these Standing Financial Instructions have been fully complied with, formal authorisation and awarding of a contract may be decided by those with delegated authority.

The total value of the contract should be determined by reference to the total period to which the contract relates

Formal authorisation must be put in writing. In the case of authorisation by the Trust Board this shall be recorded in their minutes.

7.9 Instances where formal competitive tendering or competitive quotation is not required

Where competitive tenders or competitive quotations are not required because the amounts are less than those specified in 7.7 the Trust should adopt one of the following alternatives:

- (a) The Trust shall use NHS Supply Chain or other national collaborative agreement for the procurement of goods and services unless the Chief Executive or nominated officers deem it inappropriate. The decision to use alternative sources must be documented.

Corporate Policy – Standing Financial Instructions

- (b) If the Trust does not use the NHS Supply Chain or other national collaborative agreement - the Trust shall procure goods and services in accordance with procurement procedures approved by the Chief Financial Officer.
- (c) Where a schedule of rates for work has already been approved via a minor / major construction framework agreement.

- (b) Where the sum exceeds delegated limits, a business case must be referred to the appropriate Independent Regulator for approval or treated as per current guidelines.
- (c) The proposal must be specifically agreed by The Board of the Trust.
- (d) The selection of a contractor/finance company must be on the basis of competitive tendering or quotations.

7.11 Compliance requirements for all contracts

The Board may only enter into contracts on behalf of the Trust within the statutory powers delegated to it by the Secretary of State and shall comply with:

- (a) The Trust's Constitution, Terms of Authorisation, Standing Orders and Standing Financial Instructions;
- (b) **UK Government** and other statutory provisions;
- (c) Any relevant directions including the Capital Investment Manual, Estate code and guidance on the Procurement and Management of Consultants;
- (d) Where appropriate contracts shall be in or embody the same terms and conditions of contract as was the basis on which tenders or quotations were invited.
- (e) In all contracts made by the Trust, The Board shall endeavour to obtain best value for money by use of all systems in place. The Chief Executive

Corporate Policy – Standing Financial Instructions

7.14.1 The Chief Executive shall be responsible for ensuring that best value for money can be demonstrated for all services provided on an in-house basis. The Trust should ensure from time to time that benchmarking takes place.

7.14.2 In all cases where The Board determines that in-house services should be subject to competitive tendering the following groups shall be set up:

- (a) Specification group, comprising the Chief Executive or nominated officer/s and specialist.
- (b) In-house tender group, comprising a nominee of the Chief Executive and technical support.
- (c) Evaluation team, comprising normally a specialist officer, a supplies officer and a Chief Financial Officer representative. For services having a likely annual expenditure exceeding £500,000, a non-officer member should be a member of the evaluation team.

Corporate Policy – Standing Financial Instructions

- 7.14.3 All groups should work independently of each other and individual officers may be a member of more than one group but no member of the in-house tender group may participate in the evaluation of tenders.
- 7.14.4 The evaluation team shall make recommendations to The Board.
- 7.14.5 The Chief Executive shall nominate an officer to oversee and manage the contract on behalf of the Trust.

All Board members and Trust officers must take account of that guidance before taking action.

18.3 Applicability of Standing Financial Instructions to funds held on Trust

18.3.1 In so far as it is possible to do so, most of the sections of these Standing Financial Instructions will apply to the management of funds held on trust.

18.3.2 The over-riding principle is that the integrity of each Trust must be maintained and statutory and Trust obligations met. Materiality must be assessed separately from Exchequer activities and funds.

18.3.3 Specific differences in SFIs or their application are explicitly set out in the relevant section.

19 Acceptance of Gifts by Staff and Link to Standards of Business Conduct

The Trust's policy on acceptance of gifts and other benefits in kind by staff is embodied in the Trust's Conflicts of Interest Policy and Policies on Anti-Fraud and Bribery and Standards of Business Conduct Policy. The Conflicts of Interest Policy follows the guidance from DH, and is deemed to be an integral part of these SFIs.

19.1 The Company Secretary shall ensure that a Code of Conduct and arrangements and procedures for the declaration and registering of interests of members of both The Board of Directors and the Council of Governors and other senior management as determined by The Board of Directors are in place.

Risk Management and Insurance

21.1 Programme of Risk Management

21.1.1 The Chief Executive shall ensure that the Trust has a programme of risk management, in accordance with current Independent Regulatory requirements (if any), which must be approved and monitored by The Board.

The programme of risk management shall include:

- (a) A process for identifying and quantifying risks and potential liabilities;
- (b) Engendering among all levels of staff a positive attitude towards the control of risk;
- (c) Management processes to ensure all significant risks and potential liabilities are addressed including effective systems of internal control, cost effective insurance cover, and decisions on the acceptable level of retained risk;
- (d) Contingency plans to offset the impact of adverse events;
- (e) Audit arrangements including; Internal Audit, clinical audit, health and safety review;
- (f) A clear indication of which risks shall be insured;
- (g) Arrangements to review the Risk Management programme.

The existence, integration and evaluation of the above elements will assist in providing a basis to create the Annual Governance Statement (AGS) within the Annual Report and Accounts.

Insurance brokers may be appointed if required in accordance with the Trust's SFIs governing tendering and contracting procedures, to affect such insurance cover.

21.2 Insurance: Risk Pooling Schemes administered by NHS Resolution

The Board shall decide if the Trust will insure through the risk pooling schemes administered by the NHS Resolution, commercial insurers or self-insure for some or all of the risks covered by the risk pooling schemes. Any decision not to use the risk pooling scheme administered by the NHS Resolution for any of the risk areas (clinical, property and employers/third party liability) covered by the scheme should be reviewed annually.

21.3 Insurance arrangements with commercial insurers

Corporate Policy – Standing Financial Instructions

- 21.3.1 Insurance cover for the Trust's assets (except income generation activities and motor vehicles) shall as a minimum be provided through the Property Expenses Scheme (PES) operated by the NHS Resolution.
- 21.3.2 The Trust is free to enter into appropriate insurance arrangements with commercial insurers. Insurance to cover the risk of legal action against the Trust's directors shall be arranged in line with guidance set out in the NHS Foundation Trust Code of Governance.

21.4 Arrangements to be followed by The Board in agreeing Insurance cover

Where The Board decides to use the risk pooling schemes administered by the NHS Resolution the Company Secretary shall ensure that the arrangements entered into are appropriate and complementary to the risk management programme. The Company Secretary shall ensure that documented procedures cover these arrangements.

- 21.4.1 Where The Board decides not to use the risk pooling schemes administered by the NHS Resolution for one or other of the risks covered by the schemes, or to source commercial insurance for those risks, the Company Secretary shall ensure that The Board is informed of the nature and extent of the risks that are self-insured as a result of this decision. It shall be for The Board of Directors to decide if the cost of insuring assets to a greater extent than the PES is warranted.
- 21.4.2 The Trust's nominated Claims Manager will draw up formal documented procedures for the management of any claims arising from third parties and payments in respect of losses which will not be reimbursed.
- 21.4.3 All the risk pooling schemes require Scheme members to make some contribution to the settlement of claims (the 'deductible'). The Chief Financial Officer should ensure documented procedures also cover the management of claims and payments below the deductible in each case

Credit Finance Arrangements Including Leasing Commitments

- 22.1 There are no grounds where any employee of the Trust can approve any contract or transaction which binds the Trust to credit finance commitments without the clear prior authority of the Chief Financial Officer. This includes all Executive Directors of the Trust as well as all officers. The Board has provided the Chief Financial Officer with sole authority to enter into such commitments, although these powers can be delegated by him/her to appropriate officers under his/her organisational control.
- 22.2 This instruction applies to leasing agreements and Hire Purchase undertaking which must be sent to the Chief Financial Officer for prior approval. No officer of the Trust outside the organisational control of the Chief Financial Officer has any powers to approve such commitments.
