Medway NHS Foundation Trust Information Governance Policy

To be read in conjunction with any policies listed in Trust Associated Documents.

1 Introduction

- 1.1 Information Governance (IG) is, at its simplest, a framework that draws together statutory, mandatory and best practice standards about the management of information - whether personal (patient or staff) or corporate. Good quality information is at the heart of decisions made by staff, not only in terms of patient care but also in the management of the organisation and maintaining public confidence in the services that the Trust provides.
- 1.2 The Trust is required to evidence its compliance with these standards through the Data Security & Protection (DSPT), which sets a route map for self-assessment and improvement against set criteria year on year in addition to performance against data security.
- 1.3 As Information Governance is also now part of the Well-led stream of the CQC the Trust must also provide assurances that on-going audits of best practise are being adhered to.

2 Purpose / Aim and Objective

2.1 Information Governance Framework and Policy Statement

Medway NHS Foundation Trust has defined governance structures laid out in the IG framework. These set the governance, accountability and responsibilities for ensuring it maintains and improves standards of IG compliance aligned to an [IG strategy](#) that evidentially supports the DSPT requirements.

- 2.2 The Policy framework ensures that key compliance areas provide the Senior Information Risk Owner (SIRO) with timely, reliable and fit for purpose information to meet reporting requirements, to support legislative and regulatory compliance and to assist in management decision making. Trust managers will provide commitment and leadership in respect of IG and ensuring information is accurate, robust and timely.
- 2.3 Assurances will be provided to the Trust Board through reports from the Information Governance team and DPO (Data Protection Officer) - these reports will promote openness and transparency in how the Trust is progressing against the DSPT requirements, and highlight key areas of risk and non-compliance.

Medway NHS Foundation Trust Information Governance Policy

- 2.4 The Trust aims to ‘Be the BEST’ in everything it sets out to, and this extends to embedding IG at the heart of how it protects, manages and uses patient, staff and corporate information.
- 2.5 Ensure that we are able to evidence to the CQC that the Trust is well led in Information governance and we can evidence that we meet best practise principles in relation to::
 - Availability: Data must be available when and where it is needed. It must be made accessible swiftly and securely for staff as well as within and between organisations
 - Integrity: The data must be valid and trustworthy, relevant, up to date, and protected from loss, damage, and unauthorised alteration.
 - Confidentiality: Personal identifiable data must be handled and used

3 Policy Framework

- 3.1 **Medway NHS Foundation Trust** is committed to complying with statutory, mandatory and best practice requirements through a supporting framework of documents:

<p>Information Security Policy POLCGR018 - Information Security Policy</p> <p>The Trust’s Information Security policy is a high level document that utilises a number of controls to protect the organisation’s information. The controls are delivered through policies, standards, processes, procedures, supported by tools and user training.</p>
<p>USB, Removable Media and Media Destruction Policy POLCGR086 - USB, Removable media and Media Destruction Policy</p> <p>This policy supports the Information Security Policy to ensure that strict procedures are followed to prevent patient and staff personal data is not compromised, lost or stolen through the use of removable media.</p>
<p>Records Management & Lifecycle Policy STRCGR002 - Records Management & Lifecycle Policy</p> <p>The Trust’s records are its corporate memory, providing, evidence of actions and decisions, and representing a vital asset to support daily functions and operations. Records support policy formation and managerial decision-making, protect the interests of the Trust and the rights of patients, staff and members of the public. They support consistency, continuity, efficiency and productivity and help deliver services in consistent and equitable ways. This document governs the cycle of records from their collection to disposal.</p>

Medway NHS Foundation Trust Information Governance Policy

Data Protection Policy [POLCGR007 - Data Protection Policy](#)

This policy provides a framework for the Trust to ensure compliance with its confidentiality obligations, and in particular the General Data Protection Regulation (GDPR) and the Data Protection 2018.

The Trust, as a Data Controller, has a legal obligation to comply with all appropriate legislation with regard to the processing of personal data. It also should comply with guidance issued by the Department of Health, NHS England, other advisory groups to the NHS, and guidance issued by professional bodies.

This includes the Trusts responsibilities for completing Data Privacy Impact assessments when we are using new systems or using patients or staff information in a different way [SOP0363-Conducting a DPIA](#)

Freedom of Information Policy [POLCGR009 - Freedom of Information Act 2000 Policy](#)

This policy provides a framework for the Trust to ensure compliance with the FOIA, Re-use of Public Sector Information Regulations 2005 and the Environmental Information Regulations 2004

Use of Cameras, video and audio recorders on Trust premises [GUCGR023 - Use of cameras video and audio recorders on Trust premises Policy and Procedure](#)

This guidance ensures that patient images remain confidential and for the purposes of helping with the assessment and evaluation of a patient's condition through the use of clinical photography; and service users and patients do not make recordings (covert or otherwise) of other patients, or staff engaged in clinical interventions with patients.

Secure Transfer of Information Policy [POLCGR077 - Secure Transfer of Information Policy](#)

This policy governs the transfer of patient identifiable or staff identifiable information. Its aim is to ensure such transfers meet Caldicott principles in preventing information becoming lost in transit, erroneously sent to the wrong person or sent to the correct destination but in an insecure manner.

Acceptable Use of Trust Information Systems and Assets [POLCGR113 - Acceptable Use of Trust Information Systems and Asset Policy](#)

The aim of this policy is to ensure the proper use of the Trust's NHS information systems and assets and make users aware of what the Trust deems to be acceptable and unacceptable use of these.

Data Assurance Policy [POLCOM037 - Data Quality Policy](#)

This policy describes why Data Quality and assurance is important to the Trust; where responsibilities for maintaining and improving Data Quality lie; the means by which its continual improvement will be effected; and the processes which will ensure that the Board can be assured over the effectiveness of the systems,

processes and controls over reported performance information.

Network Security Policy [POLCGR082 - Network Security Policy](#)

This policy sets out the goals of protecting systems from misuse and keeping them available to users. It aims to ensure the confidentiality, integrity and availability of the Trust's information assets.

Registration Authority (RA) Policy [POLCGR093 - Registration Authority](#)

This policy applies to all processes, procedures and activities carried out by the RA in relation to Trust systems which require Smartcard
